

Let's advance the way we work together to build a better world...

Dear VinZero Cadline Customer,

We are pleased to share with you the news that the VinZero Group of companies has been acquired by ARKANCE- a subsidiary of Monnoyeur Group, Paris, France. VinZero has chosen to join forces with ARKANCE through this acquisition as we share a vision to add value to our customers, not just to our footprint. To think global yet act local.

As a combined entity, we can achieve a true global footprint to support our customers, and we can leverage expertise across the total group to develop a consulting and solution stack that resolves the issues dominating our industry. We have a passion to unify, get better, and grow together with our customers and partners.

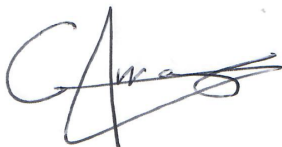

As a result of this acquisition, we now have an unparalleled global services platform led by a team of experts who have ambitious plans for the industry.

We can develop an advanced solutions model for our customers, delivering a more appealing, richer set of approaches and experiences in new ways. This includes expanding integration and customization services to enrich project outcomes, and delivering follow-the-sun global service and support to maximize their success.

We now have an unmatched global services platform for our customers.

Our vision is to advance the way we work with our customers by embedding solutions that make it easier for you to build smarter. Whether you need to achieve net zero, optimize time management, improve efficiency, or increase profitability, we are dedicated to partnering with you to help you win economically and responsibly.

As we embark on this new journey, we have more opportunity than ever before to support you in your digital transformation and to improve your project outcomes. So let's advance the way we work together to build a better world.

Gregoire Arranz
CEO ARKANCE
